CERVICAL ORTHOSES

Philadelphia Collar

Provides cervical support and moderately limits motion in flexion, extension, and rotation.
CERVICAL ORTHOSES

Miami J

Provides greater control of flexion and extension and limits rotation in post-traumatic and post-operative care.
CERVICAL ORTHOSES

Aspen Collar

Provides great control of flexion, extension, and limits rotation in post-traumatic and post-operative care
CERVICAL ORTHOSES

S.O.M.I.
Sternal Occipital Mandibular Immobilizer controls head and neck motion
**SPINAL ORTHOSES**

**Lumbar Corset**

*Designed to control pain and limit motion in the lumbar spine*
SPINAL ORTHOSES

Aspen QuikDraw RAP

Indicated for Post Lumbar Fusion, Post Lumbar Laminectomy, LBP, Arthritis, and Post Operative Spinal Management
SPINAL ORTHOSES

Custom Fabricated T.L.S.O./L.S.O.

Indicated for Post Spinal Fusion, Paralytic Spine, LBP, Post Traumatic Injury, Compression Fractures, Congenital Myopathies
SPINAL ORTHOSES

C.A.S.H.
Cruciform Anterior Spinal Hyperextension Orthosis is indicated for Compression Fractures of the ThoracoLumbar region of the spine
SPINAL ORTHOSES

Jewett Hyperextension T.L.S.O.

Indicated for Compression Fractures in the ThoracoLumbar region of the spine
SPINAL ORTHOSES

Scoliosis T.L.S.O.
Indicated for Idiopathic Scoliosis, Congenital Scoliosis, Lordosis, Kyphosis
UPPER EXTREMITY ORTHOSES

Humeral Fracture Orthosis

Indicated for Distal and Midshaft Fracture of the Humerus
UPPER ORTHOSES

Hinged Elbow Orthosis

Limits Range of Motion for Fractures, Dislocations, Tendon and Ligament Repair, Post-Operative
UPPER EXTREMITY ORTHOSES

Cock-Up Wrist Orthosis
Carpal Tunnel Syndrome, Arthritis, Sprains
UPPER EXTREMITY ORTHOSES

Resting Hand Splint
Spasticity, Positioning, Arthritis
LOWER EXTREMITY ORTHOSES

Hip Abduction Orthosis

Indicated for Hip Dislocations, Congenital Hip Dysplasia, Total Hip Arthroplasty. Hip Joint Controls Flexion, Extension, Abd/Adduction
LOWER EXTREMITY ORTHOSES

Post-Op Adjustable Range of Motion Knee Orthosis

Indicated for Fractures, Tendon and Ligament repairs, TKR, Traumatic/Non-Traumatic Injuries
LOWER EXTREMITY ORTHOSES

ACL/PCL/OA Knee Orthosis
Pre/Post-Operative Protection, Rehabilitation of ACL, PCL, MCL, and LCL Injuries, Ligament Instability, Knee Hyperextension
LOWER EXTREMITY ORTHOSES

Cam walker
Stable Fractures, Plantar Fascia, Achilles Tendon Ruptures, Sprains, Diabetic Management
LOWER EXTREMITY ORTHOSES

Custom Fabricated Fracture K.A.F.O.

Indicated for Tibia Plateau Fractures, Femur Fractures, Post-Op, Post-Traumatic Injury
LOWER EXTREMITY ORTHOSES

A.F.O. (Thermoplastic)

*Drop Foot, Post CVA, Mild Genu Recurvatum, Traumatic Ankle*
LOWER EXTREMITY ORTHOSES

Articulated A.F.O.

Indicated when ankle motion is desired. Dorsi/Plantar Flexion may be limited or restricted
LOWER EXTREMITY ORTHOSES

A.F.O. (Conventional Metal Design)

Indicated when circulation and/or sensation is compromised
LOWER EXTREMITY ORTHOSES

K.A.F.O. (Thermoplastic)

Indicated for Neuromuscular Instabilities of the Knee and Ankle
FOOT ORTHOSES

Custom Fabricated (Diabetic) Orthotics

Indicated for Multiple Foot Deformities. Designed to Maintain Proper Foot Position and Redistribute Weight Equally
CUSTOM FABRICATED CRANIAL REMOLDING HELMET

Indicated for Plagiocephaly
LOWER EXTREMITY PROSTHESSES

‘Chicago Boot’
Indicated for Partial Foot Amputation
LOWER EXTREMITY PROSTHESSES

Below Knee Prosthesis
LOWER EXTREMITY PROSTHESSES

Above Knee Prosthesis
UPPER EXTREMITY PROSTHESES

Above Elbow Prosthesis
